

# ADD YOUR VOICE TO INFORM OLDER ADULT HOUSING

This group will advise and guide research around health, housing, and technology in DC.

## Call today to find out more!

We are looking for persons over age 55, who have experience with affordable senior housing and connections to other residents to participate in seven meetings over the next year. These individuals will help us shape and guide the research. Preference will be given to residents of DC [ideally Ward 6] with experience in community meetings or public speaking.

The first meeting will be held in late August in Southwest, DC. Participants will be paid \$50 per meeting, public transportation costs will be covered, and refreshments will be served.

**Please call to Christine at 202-350-3960 or email [healthytech@institutephi.org](mailto:healthytech@institutephi.org) to learn more or sign up. Space is limited.**

## BACKGROUND

In 2028, Volunteers of America (VOA) will open an innovative older adult housing development at Buzzard Point in Southwest DC. This site will integrate technology, health, and housing to benefit a diverse population of very low-income older adults. To make this project a success, we need input from community members.

## COMMITMENT

Seven meetings will be held from August 2024 to October 2025. Meetings will be about 2-hours in-person or by Zoom.

## ELIGIBILITY

To be eligible, you must be older than 55 years, have an income less than \$63,900 per year and live in Washington, DC.

This project is funded by the Humana Foundation and supported by a network of dedicated research and community partners, all working together to make a lasting impact on the lives of older adults
