

CPR & AED | IN-PERSON

PRESENTED BY JASON ANTHONY, CHW TRAINER CONSULTANT

<https://bit.ly/3sH3ePW>

REGISTER

Learn how to:

- Assess a breathing or cardiac emergency situation
- Perform cardiopulmonary resuscitation (CPR) to help save a person's life
- Use an automated external defibrillator (AED) to help someone experiencing cardiac arrest

Oct. 6, 1-4 p.m.

1623 Connecticut Ave NW - 3rd floor

PUBLIC TRANSPORTATION: Dupont Circle metro stop, red line. Use the exit at Q Street & Connecticut.

Knowing the basics of CPR/AED can save someone's life in a cardiac or breathing emergency. In this course, community health workers (CHWs) will learn how to respond to potentially life-threatening situations involving an adult, child, or infant. You will be able to demonstrate your skills to a certified instructor and meet the requirements for a workplace safety certification. Upon completing the course, you will receive a CPR/AED certificate valid for two years.

This training is supported by the Centers for Disease Control and Prevention (CDC), together with the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of awards totaling \$4,339,895 and \$3,000,000, respectively, with 0% financed with non-governmental sources. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by CDC, HRSA, HHS, or the U.S. Government. For more information, please visit CDC.gov and HRSA.gov.
