REGISTER

Learn how to:

- Assess a breathing or cardiac emergency situation
- Perform cardiopulmonary resuscitation (CPR) to help save a person's life
- Use an automated external defibrillator (AED) to help someone experiencing cardiac arrest

Nov. 17 | 1-4 p.m.

Knowing the basics of CPR and AED can save someone's life in a cardiac or breathing emergency. In this course, community health workers (CHWs) will learn basic instructions for emergency communications and risk assessment. CHWs who demonstrate CPR and AED correctly will receive a certification valid for two years. There is a \$40 fee to receive a certification wallet card for **non-CHW Academy students.**

This training is supported by the Centers for Disease Control and Prevention (CDC), together with the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of awards totaling \$4,339,895 and \$3,000,000, respectively, with 0% financed with non-governmental sources. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by CDC, HRSA, HHS, or the U.S. Government. For more information, please visit [CDC.gov](https://www.cdc.gov) and [HRSA.gov](https://www.hrsa.gov).
